Message from the Director

I am pleased to welcome to the Indian Institute of Plantation Management and Associated Agri-Business Management through high quality education and research, towards the advancement of the institute’s tradition of excellence in Plantation Management (IIPM). IIPM has served as our nation’s premier institute for 33 years. Our campus is set in a beautiful landscape with a spectacular learning environment that encourages interaction and camaraderie. Our distinguished faculty, with extensive ties on leading agri-business and plantation companies, offers students limitless opportunities that make IIPM, a truly special place.

Professor V. G. Dhanakumar

Curriculum Outline and Contents

Programme Duration: Two Years (6 trimesters) commencing July 2013

Programme Structure:

The programme is divided into 6 classroom trimesters covering 117 credits (including Corporate Training Segment of 12 weeks). The total number of credits includes teaching, non-teaching, and off-campus study credits and the 12-week training is mandatory for all candidates. These credits include the academic interest component during which students are provided with the opportunity to acquire business communication skills.

Academic Integrity:

The principle of academic integrity is adhered to while students pursue opportunities that expand their learning horizons, thus, while student pursue opportunities that expand their learning horizons, the programme provides an environment that encourages them to uphold the highest levels of personal and academic integrity.

While still adhering to principles that expand their learning horizons, the programme provides an environment that encourages students to uphold the highest levels of personal and academic integrity.

Faculty and Students at Excellence in Plantation Management (PGDM-ABPM) is a 2-year integrated course designed to provide comprehensive education and training in Plantation and Agri-Business Management. The programme is aimed at combining the grass-root action with global knowledge, creating today’s cutting-edge knowledge. The students quickly discover that the academic expectations are very high at IIPM. Students should be challenged to perform at the highest levels, expected to work harder, and expected to think more critically. The programme is divided into 6 classroom trimesters covering 117 credits. The total number of credits includes teaching, non-teaching, and off-campus study credits and the 12-week training is mandatory for all candidates. These credits include the academic interest component during which students are provided with the opportunity to acquire business communication skills.

The knowledge resource centre is equipped with state-of-the-art, digital computer centre, technical lab, knowledge resource centre, placement office, student hostels, and all other facilities. The students will be learning the conceptual understanding of management—skill, discipline, attitude, values, and ethics. Industry–institute interaction brings experts from plantation and associated agri-business companies closer and in the classroom. In addition to professors’ office hours, students often spend time with their professors in the classroom. In addition to professors’ office hours, students often spend time with their professors in the classroom. The faculty and students are expected to uphold the highest levels of personal and academic integrity.

IIPM faculty are expected to uphold the highest levels of personal and academic integrity.

Eligibility:

Candidates appearing in final year exams in March/April 2013 are accepted as an indicator of the same. They may submit GMAT or any equivalent scores. Foreign students are eligible to apply as per IIPM rules, subject to meeting the other eligibility criteria.

Scholarships:

Foreign students can be admitted under the open and sponsored categories. They may submit TOEFL or any equivalent test. TOEFL/IELTS scores would be accepted as an indicator of the same.

Teaching and Learning at IIPM:

IIPM curriculum is developed through extensive consultations with teachers and corporate trainers to whom the training is due respect and appreciation. The faculty and students are expected to uphold the highest levels of personal and academic integrity.

IIPM faculty are expected to uphold the highest levels of personal and academic integrity.
